Dear Lelio Basso,

On behalf of members of the Philadelphia Support Committee for the Russell Tribunal, I wish to inform you of our formation on September 12, 1973. We view our first task to be an educational program in the Philadelphia area to expand the circle of people who are aware of the situation in Brazil. This in itself will be a formidable task because of the information blockade of the truth about Brazil and the general apathetic mood of liberal sectors of our population. We shall be coordinating our local fund raising, educational, and political work on the Tribunal with the National Support Committee which is now also in the process of formation.

In solidarity,

Jim Green, correspondent
